DID YOU KNOW?

Our salons run lots of different promotions throughout the year which change all the time. For information on current deals please contact our receptions.

Students and staff of Nottingham College can get 20% off their treatment at our Your Look salons.

Plus! Family and friends of students training in any of the salons can receive 20% off hair treatments and beauty treatments over £10!

Please note: Staff and students must show a valid ID card on arrival.

Please quote your discount when booking an appointment. Terms and conditions apply.

TERMS AND CONDITIONS

We respectfully ask clients to remember that all treatments are performed in a training environment, so the time taken will be longer. We therefore ask you to be understanding when some students may take longer than others. Clients may be required to stay for the whole session.

Our treatments are subject to change throughout the year, please consult the reception team for availability.

- **Notification of cancellation is required 48 hours prior to appointment. This is essential to allow us to plan sessions. Clients who do not show will be charged £5.00 per missed appointment and those who repeatedly miss appointments will be required to pay a deposit on booking.**
- For all hair colouring and some beauty services a skin test is required 48 hours before a treatment can be carried out.
- Please note we accept card payments with a minimum of £5. Anything less may incur a small charge.

SOCIAL MEDIA

Don't forget to like and follow us on our social media channels.

We love to see the cuts, styles and treatments our students and stylists create. So get tagging us in pics of your new 'do' or beauty treatment!

LEVEL 2 FACIAL TREATMENTS

Your Look Wheeler Gate & Clarendon

DURATION

PRICE

Luxury Facial with Dermalogica	60 mins	£17
--------------------------------	---------	-----

The luxury facials include a skin analysis, cleansing, exfoliation and steaming, plus a face, neck and shoulder massage. After the skin analysis your therapist provide you with a personalised facial experience to suit your skin type using the Dermalogica range.

LEVEL 3 FACIAL SERVICES

Your Look Wheeler Gate only

DURATION

PRICE

You will be booking in for an advanced facial which will incorporate one or two pieces of electrical equipment. After completion of a detailed consultation the student therapist will advise which treatment is most suitable for you. Below are descriptions of the treatments your student therapist could advise you having. These treatments use Spa Find products.

Galvanic Facial	60 mins	£20
-----------------	---------	-----

The galvanic facial uses active water-soluble substances, such as gels, serums or creams that are either positively or negatively charged to deep cleanse the skin tissues. Either a positive or negative electrode is used on the face; the electrode drives the products deep into the skin tissue to deep cleanse, emulsifying sebum (the skins natural oil) and softening blockages for further treatment.

Faradic Facials	60 mins	£18
-----------------	---------	-----

With EMS the faradic machine acts as the brain and it sends electrical impulses through the motor nerves in the face via a pair of electrodes to produce first muscle contraction and then muscle relaxation. The treatment time is normally 15-20 minutes with usually 6-8 contractions per muscle, passing over the face 2-3 times and is part of a course of treatments, with two to three treatments a week recommended over a period of time to achieve successful muscle improvement with facial exercises given to support treatment. Length of course varies according to the treatment objective and condition of the muscles.

PRICE

Vacuum Suction Facial

60 mins

£18

The vacuum suction facial aids lymphatic fluid drainage by using a vacuum suction machine. The treatment gently stimulates the lymphatic system and removes waste products from the tissue, improving the colour and appearance of the skin.

High Frequency Facial

60 mins

£18

The high frequency treatment can be used on the face or body (usually the back) to improve the skin's condition. There are two kinds of high frequency treatment:

INDIRECT HIGH FREQUENCY

In this treatment the client holds a glass saturator electrode to channel the current whilst the therapist performs a massage routine. The process stimulates circulation which improves the colour of the skin. This treatment is recommended for mature or dehydrated skin types.

DIRECT HIGH FREQUENCY

In this treatment a glass electrode is applied directly onto the skin. This treatment is recommended for oily/congested/blemished skin types due to the beneficial germicidal effect it has on the skin's ability to heal.

Micro-current Facial (nonsurgical face lift)

60 mins

£20

A micro-current facial is a preventative measure in helping to slow down the ageing process. It firms and lifts the muscle myofibrils in the face, improving the appearance of fine lines, wrinkles and creases. It promotes better circulation and lymph fluid drainage which reduces puffiness. Other benefits include softening scar tissue, tightening and reducing pores and cleansing and rebalancing the skin's moisture levels.

Microdermabrasion Facial

60 mins

£25

Microdermabrasion is a mechanical exfoliating, or skin-peeling, treatment. The treatment can be applied to the face, neck, chest, back, hands and over areas of scar tissue. There are two forms of microdermabrasion treatment:

DIAMOND MICRODERMABRASION

Diamond microdermabrasion is a newer procedure that is becoming more popular, as no loose crystals or abrasives are released into the environment. Instead of using crystals to exfoliate the skin, a handpiece encrusted with diamond or other particles (e.g. silicon carbide) is passed over the skin. The diamond tip abrades the skin in a similar way to the crystal version.

CRYSTAL MICRODERMABRASION

Crystal microdermabrasion is the most widely used. It is a mechanical exfoliating treatment where a controlled, high-speed flow of micro aluminium oxide crystals is applied under pressure, over the skin's surface.

*Please note we only have one crystal microdermabrasion machine.

BEAUTY

LEVEL 3 BODY SERVICES		
Your Look Wheeler Gate only.		
	DURATION	PRICE
Swedish Full Body Massage	60 mins	£15
Swedish Back Massage	30 mins	£10
The Swedish massage treatments use five styles of long, flowing strokes to relieve stress, leaving you relaxed and rejuvenated.		
Hot Stone Full Body Massage	60 mins	£15
Hot Stone Back Massage	60 mins	£10
The hot stone treatments use heated basalt and semi precious chakra crystals. These are deeply soothing and help to release tight muscles and relax the body.		
Galvanic Body Treatment	30 mins	£12
The galvanic body treatment introduces active substances into the tissues to increase fluid loss and mobilise fatty tissue. The treatment has a diuretic effect which can increase lymphatic flow & assist during a weight-loss programme. It also improves the appearance of cellulite by dispersing fatty deposits; improves blood circulation and aids the removal of toxins & waste products.		
Vacuum Suction Body Treatment	45 mins	£12
The vacuum suction body treatment is performed using a ventouse which is applied to the skin with a straight gliding manner towards the lymph nodes. Benefits of the treatment include; aiding the flow of waste products, improving the appearance and tone of the skin, and reducing fine lines. It also improves fluid drainage and reduces fluid retention, plus, increases circulation and mobilises fatty deposits.		
Faradic Body Treatment	60 mins	£12
The faradic body treatment causes stimulation of the muscles to help tone & strengthen them. The application of the treatment is using an electrical current to stimulate the motor nerves causing a gradual contraction in the muscles. This treatment helps to improve the colour of the skin.		
G5 Body Treatment	45 mins	£12
The G5 body treatment manipulates the body tissues, using a vibration machine called a G5. This kind of massage works deeper into the muscles and is ideal for stimulation of blood and lymph which aids the removal of toxins and waste materials within the body. Helping to improve texture and softening hard adipose tissue (helping improve the appearance of cellulite).
